Proceedings: Order re: Stipulated Protective Order [Dkt. 22]

The parties' proposed Stipulation and Protective Order has been referred by the District Judge to the Magistrate Judge for consideration. The parties are advised that the Court declines to issue the proposed protective order to which they have stipulated for the following reasons:

1. The parties shall include a statement of good cause, as required by Fed. R. Civ. P. 26(c). Such showing should be made separate from the parties' stipulation regarding the terms of the proposed protective order.

2. Proposed ¶¶ 6, 9, 20, and 21 need to be revised to make clear that any motion challenging or seeking to uphold a party's designation of material as Confidential Information or seeking to modify or amend the proposed Protective Order must be brought in strict compliance with Local Rules 37-1 and 37-2 (including the Joint Stipulation requirement).

3. Proposed ¶ 17 needs to be revised to make clear a Party that seeks to file under seal any Protected Material must comply with Civil Local Rule 79-5. Protected Material may only be filed under seal pursuant to a separate court order authorizing the sealing of the specific Protected Material at issue. If a Party's request to file Protected Material under seal is denied by the court, then the Receiving Party may file the information in the public record unless otherwise instructed by the court.

4. Proposed ¶ 13 needs to be revised to unequivocally state that nothing in the protective order shall be construed as authorizing a party to disobey a lawful subpoena or court order issued in another action.

5. The signature block for the judge in the proposed Order needs to be changed to the signature block for the Magistrate Judge.

The parties are further directed to the Court's sample stipulated protective order located on the Court's website for a sample of the format of an approved stipulated protective order. The parties are strongly encouraged to use the language contained in the approved stipulated protective order.
